

Amazon Coaching & Mentorship Programme

This document is just so I'm able to fully understand your Amazon expectations and requirements.

To help me fully understand what you are looking to get out of the programme.

If you can please answer the questions in as much detail as possible. I will use this information to tailor future sessions so you are able to get the most out of my service.

You of course do not have to undertake the programme with me if you feel this isn't for you after this initial discussion stage.

A Bit About Me & My Background.

My background before moving full time online was mainly in the Financial sector, working for companies such as HSBC. Before that I obtained a business degree and have studied my AAT accounting qualifications.

Since then I have successfully set up my own Amazon business starting back in 2016 able to sell over 6 figures from 2017 onwards each and every year. I recently surpassed my 2019 Q4 goals selling over £135,000 using the methods I teach through this programme.

Feel free to write out your answers on a separate sheet if necessary.

Questions to Complete

- 1) If you can provide me with a brief background on yourself, this is just so I can gauge the type of business strategy to suit your personality and goals.
- 2) What is your current level of understanding with selling on Amazon and online arbitrage, complete beginner, beginner, intermediate or advanced.
- 3) What are you hoping to achieve by carrying out the programme?
- 4) Any further questions for me that you may have?
